

**JOB HAZARD ASSESSMENT (JHA)**

**ACTIVITY: Electrofishing - Boat**

(CERTIFICATION OF HAZARD ASSESSMENT - 29 CFR 1910.132d)

STATION:

DATE PREPARED:

PREPARED BY:

CERTIFIED BY (Supervisor):

**PERSONAL PROTECTIVE EQUIPMENT REQUIRED: List Type**

- Electrical - Properly rated rubber gloves and rubber boots
- Eyes/Face - Polaroid sunglasses
- Foot - Rubber boots with felt soles can be worn. Chest waders optional
- Hand - Properly rated rubber gloves
- Head -
- Leg -
- Body/Other – Insect repellent and sunscreen

**QUALIFICATIONS, EXPERIENCE, OR TRAINING REQUIRED:**

All personnel must follow procedures outlined in 241 FW 6. Team leaders must be certified by completing the NTC course Principles & Techniques of Electrofishing (FIS2201). Team leaders must train all crew in EF equipment components and procedures, hazards in EF and safe operation of EF equipment. Personnel must be trained on task specific job hazard assessments (JHA) for Electrofishing at: <http://policy.fws.gov/241fw6.html> Two members of the team (including team leader) must be trained in First Aid/CPR. No one under the age of 18 will be a member of the crew. See Service guidelines for other specifics. Operator of the watercraft must have successfully completed the MOCC safety course.

<b>BASIC JOB STEPS</b>	<b>HAZARDS</b>	<b>SAFE JOB PROCEDURE</b>
Break work down to basic elements (such as remove, lift, carry, stop, start, apply, return, squeeze, weld, saw, walk, hold, grind, place, etc.). Describe what is done, not how it is done.	For each job step, state what accident could occur and/or what hazard is present. To determine this, ask yourself, "can the person fall; overexert; be exposed to burns, fumes, rays, gas, etc.; hit against; be struck by; in contact with; be caught in, on, or between?"	State how each element of work should be performed to prevent the accident or avoid the hazard. What should the person do or not do? Be specific. What precautions should be taken? Ask yourself, "What can I do to eliminate, modify, guard, identify, or protect against the potential hazard or accident, including such things as how the worker stands, holds, uses, carries, dresses, etc.?"
Prepare boat and equipment.  Operating boat	Musculoskeletal strain  Drowning, Noise, UV Radiation	Go through inspection checklist of equipment, Create float plan, Brief crew on purpose of trip and safety procedures.  Use two person lift if equipment is too heavy for one person. Use proper lifting techniques (bend at the knees).  Wear approved PFD while on board.  Wear ear plugs and/or muffs for hearing protection (See 242 FW 3) during noise generating operations. <b>Note:</b> The purchase of sound powered headphones is authorized through station funding.  Wear polarized sun glasses.  Wear appropriate SPF level sunscreen.

**JOB HAZARD ASSESSMENT (Continuation Sheet)**

ACTIVITY: \_\_\_\_\_

DATE PREPARED: \_\_\_\_\_

BASIC JOB STEPS	HAZARDS	SAFE JOB PROCEDURE
Shocking specimens for collection	Electrocution, Repetitive strain, UV Radiation, Heat Stress	<p>Review all operational procedures approved under 241 FW 6.</p> <p>Wear the following PPE:</p> <p>(a) Hip boots will be worn so they can be easily removed in case the boat capsizes.</p> <p>(b) Rubber chest waders can also be worn, when necessary, in order to remain dry as protection against electrical shock.</p> <p><b>NOTE:</b> Any straps for hip boots or chest waders must be put on over the PFD so they can be released in an emergency.</p> <p>(c) Rubber gloves that are rated above the voltage being used will be worn. These will be inspected before each use and replaced at adequate intervals.</p> <p>(d) Polaroid-type sunglasses will be worn to reduce glare from the water.</p> <p>(e) Department/USCG approved Personal Flotation Devices that are international orange with reflective tape (see 242 FW 1 for specifics). <b>Note:</b> Life vests that meet the requirements of Type II are designed to turn an unconscious person in the water from a face downward position to a vertical or slightly backward position. Float coats may provide some protection against the loss of body heat if the person were to accidentally fall into the cold water.</p> <p>Use short handled nets to capture fish from boat to ease strain on arms, elbows and shoulders.</p> <p>Drink fluids frequently and take breaks as needed.</p> <p><b>Instruction Sheets.</b> For electrofishing equipment, boats and operational procedures, instruction sheets will be enclosed in waterproof plastic and be readily available for reference at all times during the electrofishing operation.</p>
