

U.S Fish and Wildlife Service

# National Conservation Training Center

## *Training Announcement*

### **Status of Tribes and Climate Change Webinar**

The Status of Tribes and Climate Change (STACC) Report seeks to uplift and honor the voices of Indigenous peoples across the U.S. to increase understanding of Tribal lifeways, cultures, and worldviews, the climate change impacts Tribes are experiencing, the solutions they are implementing, and ways that all of us can support Tribes in adapting to our changing world. The report was convened by the Institute for Tribal Environmental Professionals (ITEP) Tribes and Climate Change Program and written by the STACC Working Group. - [STACC 2021- ITEP \(google.com\)](#)

This webinar is delivered by the NCTC, in partnership with the FWS Climate Change Community of Practice and ITEP.
